

Excel Intelligence System

Overview

The Excel Intelligence System is designed to help professionals eliminate repetitive spreadsheet work by using AI as an intelligent Excel assistant.

Instead of searching forums or spending hours writing formulas, this system provides structured workflows that transform AI into a business productivity tool.

Workflow 1 — Formula Builder

Problem

Creating advanced Excel formulas is slow and frustrating.

Objective

Generate optimized formulas with explanations.

AI Prompt

You are a Microsoft Excel expert.

Help me create the best possible formula.

Context:

- Excel Version:
- Language:
- Dataset:
- Desired Result:

Requirements:

- Build the optimal formula.
- Explain every function used.
- Suggest a simpler alternative if available.
- Warn about common mistakes.
- Optimize for performance.

Expected Result

- Correct formula
- Formula explanation
- Alternative solution
- Performance recommendation

Workflow 2 — Data Cleaning

Problem

Business data is inconsistent.

Objective

Prepare datasets for reporting.

AI Prompt

You are a professional data quality analyst.

Help me clean the following Excel dataset.

Requirements:

- Detect duplicates.
- Detect formatting problems.
- Detect missing values.
- Detect inconsistent categories.
- Recommend cleaning strategy.
- Suggest Power Query when appropriate.

Workflow 3 — Dashboard Designer

Problem

Most dashboards contain too much information.

Objective

Create executive dashboards.

AI Prompt

You are an executive dashboard consultant.

Help me design an executive dashboard.

Audience:

Business Goal:

KPIs:

Current Data:

Requirements:

- Dashboard layout
- Best charts
- KPI hierarchy
- Executive recommendations
- Automation ideas

Workflow 4 — Executive Reports

Problem

Weekly reports consume too much time.

Objective

Generate executive summaries automatically.

AI Prompt

You are a senior business analyst.

Create an executive report using the following KPI information.

Requirements:

- Executive summary
- Key achievements
- Risks
- Opportunities
- Recommended actions

Workflow 5 — Business Insights

Problem

Data rarely explains what decisions should be made.

Objective

Transform raw information into decisions.

AI Prompt

You are a senior business consultant.

Analyze the following information.

Requirements:

- Identify trends.
- Detect anomalies.
- Explain business impact.
- Recommend actions.
- Prioritize recommendations.

Best Practices

Always provide:

- business context
- sample data
- expected outcome

- audience
- constraints

The better the context, the better the AI response.

Common Mistakes

■ Asking for "an Excel formula"

Instead ask:

"I need to calculate customer retention by month using Excel 365."

■ Asking:

"Analyze this."

Instead ask:

"Analyze this sales dataset to identify declining products and recommend actions."

Pro Tip

Treat AI as an Excel consultant—not as a search engine.

The quality of your instructions determines the quality of your results.

Excel Intelligence

Overview

This system helps professionals accelerate repetitive business tasks using AI-driven workflows.

Workflow 1 — Formula Builder

Problem

Creating complex Excel formulas.

Objective

Generate optimized formulas.

Audience

Excel users

AI Prompt

You are a senior consultant specialized in **Formula Builder**.

Help me solve the following task.

Business Context

[Describe your situation]

Requirements

- Produce a professional result.
- Explain your reasoning.
- Recommend improvements.
- Identify risks.
- Suggest best practices.

Expected Output

- Professional deliverable
- Actionable recommendations
- Clear business language
- Practical next steps

Example

Adapt your response to the supplied business context.

Best Practices

- Include enough business context.
- Specify the desired outcome.
- Mention constraints.
- Review the generated result.

Common Mistakes

- Missing business context.
- Ambiguous instructions.
- Undefined objectives.

Pro Tip

Treat AI as a senior consultant instead of a search engine.

Workflow 2 — Data Cleaning

Problem

Inconsistent business data.

Objective

Clean datasets.

Audience

Business analysts

AI Prompt

You are a senior consultant specialized in ****Data Cleaning****.

Help me solve the following task.

Business Context

[Describe your situation]

Requirements

- Produce a professional result.
- Explain your reasoning.
- Recommend improvements.
- Identify risks.
- Suggest best practices.

Expected Output

- Professional deliverable
- Actionable recommendations
- Clear business language
- Practical next steps

Example

Adapt your response to the supplied business context.

Best Practices

- Include enough business context.
- Specify the desired outcome.
- Mention constraints.
- Review the generated result.

Common Mistakes

- Missing business context.
- Ambiguous instructions.
- Undefined objectives.

Pro Tip

Treat AI as a senior consultant instead of a search engine.

Workflow 3 — Dashboard Designer

Problem

Poor dashboards.

Objective

Build executive dashboards.

Audience

Managers

AI Prompt

You are a senior consultant specialized in ****Dashboard Designer****.

Help me solve the following task.

Business Context

[Describe your situation]

Requirements

- Produce a professional result.
- Explain your reasoning.
- Recommend improvements.
- Identify risks.
- Suggest best practices.

Expected Output

- Professional deliverable
- Actionable recommendations
- Clear business language
- Practical next steps

Example

Adapt your response to the supplied business context.

Best Practices

- Include enough business context.
- Specify the desired outcome.
- Mention constraints.
- Review the generated result.

Common Mistakes

- Missing business context.
- Ambiguous instructions.
- Undefined objectives.

Pro Tip

Treat AI as a senior consultant instead of a search engine.

Workflow 4 — Executive Reports

Problem

Weekly reporting takes too much time.

Objective

Generate executive summaries.

Audience

Executives

AI Prompt

You are a senior consultant specialized in **Executive Reports**.

Help me solve the following task.

Business Context

[Describe your situation]

Requirements

- Produce a professional result.
- Explain your reasoning.
- Recommend improvements.
- Identify risks.
- Suggest best practices.

Expected Output

- Professional deliverable
- Actionable recommendations
- Clear business language
- Practical next steps

Example

Adapt your response to the supplied business context.

Best Practices

- Include enough business context.
- Specify the desired outcome.
- Mention constraints.
- Review the generated result.

Common Mistakes

- Missing business context.
- Ambiguous instructions.

- Undefined objectives.

Pro Tip

Treat AI as a senior consultant instead of a search engine.

Workflow 5 — Business Insights

Problem

Raw data doesn't explain decisions.

Objective

Generate business recommendations.

Audience

Decision makers

AI Prompt

You are a senior consultant specialized in ****Business Insights****.

Help me solve the following task.

Business Context

[Describe your situation]

Requirements

- Produce a professional result.
- Explain your reasoning.
- Recommend improvements.
- Identify risks.
- Suggest best practices.

Expected Output

- Professional deliverable
- Actionable recommendations
- Clear business language
- Practical next steps

Example

Adapt your response to the supplied business context.

Best Practices

- Include enough business context.
- Specify the desired outcome.
- Mention constraints.
- Review the generated result.

Common Mistakes

- Missing business context.
- Ambiguous instructions.
- Undefined objectives.

Pro Tip

Treat AI as a senior consultant instead of a search engine.

Executive Productivity

Overview

This system helps professionals accelerate repetitive business tasks using AI-driven workflows.

Workflow 1 — Executive Email

Problem

Emails consume time.

Objective

Produce executive emails.

Audience

Executives

AI Prompt

You are a senior consultant specialized in ****Executive Email****.

Help me solve the following task.

Business Context

[Describe your situation]

Requirements

- Produce a professional result.
- Explain your reasoning.
- Recommend improvements.
- Identify risks.
- Suggest best practices.

Expected Output

- Professional deliverable
- Actionable recommendations
- Clear business language
- Practical next steps

Example

Adapt your response to the supplied business context.

Best Practices

- Include enough business context.
- Specify the desired outcome.
- Mention constraints.
- Review the generated result.

Common Mistakes

- Missing business context.
- Ambiguous instructions.
- Undefined objectives.

Pro Tip

Treat AI as a senior consultant instead of a search engine.

Workflow 2 — Meeting Brief

Problem

Meetings start without context.

Objective

Prepare executive briefs.

Audience

Leaders

AI Prompt

You are a senior consultant specialized in ****Meeting Brief****.

Help me solve the following task.

Business Context

[Describe your situation]

Requirements

- Produce a professional result.
- Explain your reasoning.
- Recommend improvements.
- Identify risks.
- Suggest best practices.

Expected Output

- Professional deliverable

- Actionable recommendations
- Clear business language
- Practical next steps

Example

Adapt your response to the supplied business context.

Best Practices

- Include enough business context.
- Specify the desired outcome.
- Mention constraints.
- Review the generated result.

Common Mistakes

- Missing business context.
- Ambiguous instructions.
- Undefined objectives.

Pro Tip

Treat AI as a senior consultant instead of a search engine.

Workflow 3 — Decision Memo

Problem

Decisions lack documentation.

Objective

Produce decision memos.

Audience

Directors

AI Prompt

You are a senior consultant specialized in ****Decision Memo****.

Help me solve the following task.

Business Context

[Describe your situation]

Requirements

- Produce a professional result.
- Explain your reasoning.
- Recommend improvements.
- Identify risks.

- Suggest best practices.

Expected Output

- Professional deliverable
- Actionable recommendations
- Clear business language
- Practical next steps

Example

Adapt your response to the supplied business context.

Best Practices

- Include enough business context.
- Specify the desired outcome.
- Mention constraints.
- Review the generated result.

Common Mistakes

- Missing business context.
- Ambiguous instructions.
- Undefined objectives.

Pro Tip

Treat AI as a senior consultant instead of a search engine.

Workflow 4 — Presentation Builder

Problem

Presentations take hours.

Objective

Build presentations.

Audience

Executives

AI Prompt

You are a senior consultant specialized in ****Presentation Builder****.

Help me solve the following task.

Business Context

[Describe your situation]

Requirements

- Produce a professional result.
- Explain your reasoning.
- Recommend improvements.
- Identify risks.
- Suggest best practices.

Expected Output

- Professional deliverable
- Actionable recommendations
- Clear business language
- Practical next steps

Example

Adapt your response to the supplied business context.

Best Practices

- Include enough business context.
- Specify the desired outcome.
- Mention constraints.
- Review the generated result.

Common Mistakes

- Missing business context.
- Ambiguous instructions.
- Undefined objectives.

Pro Tip

Treat AI as a senior consultant instead of a search engine.

Workflow 5 — Weekly Executive Summary

Problem

Weekly reporting is repetitive.

Objective

Produce executive summaries.

Audience

Leadership

AI Prompt

You are a senior consultant specialized in ****Weekly Executive Summary****.

Help me solve the following task.

Business Context

[Describe your situation]

Requirements

- Produce a professional result.
- Explain your reasoning.
- Recommend improvements.
- Identify risks.
- Suggest best practices.

Expected Output

- Professional deliverable
- Actionable recommendations
- Clear business language
- Practical next steps

Example

Adapt your response to the supplied business context.

Best Practices

- Include enough business context.
- Specify the desired outcome.
- Mention constraints.
- Review the generated result.

Common Mistakes

- Missing business context.
- Ambiguous instructions.
- Undefined objectives.

Pro Tip

Treat AI as a senior consultant instead of a search engine.

Project Delivery

Overview

This system helps professionals accelerate repetitive business tasks using AI-driven workflows.

Workflow 1 — Project Planning

Problem

Weak planning.

Objective

Produce project plans.

Audience

Project Managers

AI Prompt

You are a senior consultant specialized in **Project Planning**.

Help me solve the following task.

Business Context

[Describe your situation]

Requirements

- Produce a professional result.
- Explain your reasoning.
- Recommend improvements.
- Identify risks.
- Suggest best practices.

Expected Output

- Professional deliverable
- Actionable recommendations
- Clear business language
- Practical next steps

Example

Adapt your response to the supplied business context.

Best Practices

- Include enough business context.
- Specify the desired outcome.
- Mention constraints.
- Review the generated result.

Common Mistakes

- Missing business context.
- Ambiguous instructions.
- Undefined objectives.

Pro Tip

Treat AI as a senior consultant instead of a search engine.

Workflow 2 — Risk Assessment

Problem

Risks are undocumented.

Objective

Analyze risks.

Audience

PMO

AI Prompt

You are a senior consultant specialized in ****Risk Assessment****.

Help me solve the following task.

Business Context

[Describe your situation]

Requirements

- Produce a professional result.
- Explain your reasoning.
- Recommend improvements.
- Identify risks.
- Suggest best practices.

Expected Output

- Professional deliverable
- Actionable recommendations
- Clear business language
- Practical next steps

Example

Adapt your response to the supplied business context.

Best Practices

- Include enough business context.
- Specify the desired outcome.
- Mention constraints.
- Review the generated result.

Common Mistakes

- Missing business context.
- Ambiguous instructions.

- Undefined objectives.

Pro Tip

Treat AI as a senior consultant instead of a search engine.

Workflow 3 — Status Reporting

Problem

Reports consume time.

Objective

Produce status reports.

Audience

Stakeholders

AI Prompt

You are a senior consultant specialized in ****Status Reporting****.

Help me solve the following task.

Business Context

[Describe your situation]

Requirements

- Produce a professional result.
- Explain your reasoning.
- Recommend improvements.
- Identify risks.
- Suggest best practices.

Expected Output

- Professional deliverable
- Actionable recommendations
- Clear business language
- Practical next steps

Example

Adapt your response to the supplied business context.

Best Practices

- Include enough business context.
- Specify the desired outcome.
- Mention constraints.
- Review the generated result.

Common Mistakes

- Missing business context.
- Ambiguous instructions.
- Undefined objectives.

Pro Tip

Treat AI as a senior consultant instead of a search engine.

Workflow 4 — Meeting Summary

Problem

Decisions are forgotten.

Objective

Summarize meetings.

Audience

Teams

AI Prompt

You are a senior consultant specialized in ****Meeting Summary****.

Help me solve the following task.

Business Context

[Describe your situation]

Requirements

- Produce a professional result.
- Explain your reasoning.
- Recommend improvements.
- Identify risks.
- Suggest best practices.

Expected Output

- Professional deliverable
- Actionable recommendations
- Clear business language
- Practical next steps

Example

Adapt your response to the supplied business context.

Best Practices

- Include enough business context.

- Specify the desired outcome.
- Mention constraints.
- Review the generated result.

Common Mistakes

- Missing business context.
- Ambiguous instructions.
- Undefined objectives.

Pro Tip

Treat AI as a senior consultant instead of a search engine.

Workflow 5 — Lessons Learned

Problem

Knowledge isn't reused.

Objective

Capture lessons learned.

Audience

Organizations

AI Prompt

You are a senior consultant specialized in **Lessons Learned**.

Help me solve the following task.

Business Context

[Describe your situation]

Requirements

- Produce a professional result.
- Explain your reasoning.
- Recommend improvements.
- Identify risks.
- Suggest best practices.

Expected Output

- Professional deliverable
- Actionable recommendations
- Clear business language
- Practical next steps

Example

Adapt your response to the supplied business context.

Best Practices

- Include enough business context.
- Specify the desired outcome.
- Mention constraints.
- Review the generated result.

Common Mistakes

- Missing business context.
- Ambiguous instructions.
- Undefined objectives.

Pro Tip

Treat AI as a senior consultant instead of a search engine.

Technical Documentation

Overview

This system helps professionals accelerate repetitive business tasks using AI-driven workflows.

Workflow 1 — Technical Guide

Problem

Documentation is inconsistent.

Objective

Produce professional documentation.

Audience

Technical teams

AI Prompt

You are a senior consultant specialized in **Technical Guide**.

Help me solve the following task.

Business Context

[Describe your situation]

Requirements

- Produce a professional result.
- Explain your reasoning.
- Recommend improvements.

- Identify risks.
- Suggest best practices.

Expected Output

- Professional deliverable
- Actionable recommendations
- Clear business language
- Practical next steps

Example

Adapt your response to the supplied business context.

Best Practices

- Include enough business context.
- Specify the desired outcome.
- Mention constraints.
- Review the generated result.

Common Mistakes

- Missing business context.
- Ambiguous instructions.
- Undefined objectives.

Pro Tip

Treat AI as a senior consultant instead of a search engine.

Workflow 2 — Procedure Builder

Problem

Procedures vary between authors.

Objective

Standardize procedures.

Audience

Operations

AI Prompt

You are a senior consultant specialized in **Procedure Builder**.

Help me solve the following task.

Business Context

[Describe your situation]

Requirements

- Produce a professional result.
- Explain your reasoning.
- Recommend improvements.
- Identify risks.
- Suggest best practices.

Expected Output

- Professional deliverable
- Actionable recommendations
- Clear business language
- Practical next steps

Example

Adapt your response to the supplied business context.

Best Practices

- Include enough business context.
- Specify the desired outcome.
- Mention constraints.
- Review the generated result.

Common Mistakes

- Missing business context.
- Ambiguous instructions.
- Undefined objectives.

Pro Tip

Treat AI as a senior consultant instead of a search engine.

Workflow 3 — Root Cause Analysis

Problem

RCA documents are incomplete.

Objective

Produce structured RCA.

Audience

Support

AI Prompt

You are a senior consultant specialized in **Root Cause Analysis**.

Help me solve the following task.

Business Context

[Describe your situation]

Requirements

- Produce a professional result.
- Explain your reasoning.
- Recommend improvements.
- Identify risks.
- Suggest best practices.

Expected Output

- Professional deliverable
- Actionable recommendations
- Clear business language
- Practical next steps

Example

Adapt your response to the supplied business context.

Best Practices

- Include enough business context.
- Specify the desired outcome.
- Mention constraints.
- Review the generated result.

Common Mistakes

- Missing business context.
- Ambiguous instructions.
- Undefined objectives.

Pro Tip

Treat AI as a senior consultant instead of a search engine.

Workflow 4 — Integration Documentation

Problem

Integrations lack documentation.

Objective

Document enterprise integrations.

Audience

Architects

AI Prompt

You are a senior consultant specialized in ****Integration Documentation****.

Help me solve the following task.

Business Context

[Describe your situation]

Requirements

- Produce a professional result.
- Explain your reasoning.
- Recommend improvements.
- Identify risks.
- Suggest best practices.

Expected Output

- Professional deliverable
- Actionable recommendations
- Clear business language
- Practical next steps

Example

Adapt your response to the supplied business context.

Best Practices

- Include enough business context.
- Specify the desired outcome.
- Mention constraints.
- Review the generated result.

Common Mistakes

- Missing business context.
- Ambiguous instructions.
- Undefined objectives.

Pro Tip

Treat AI as a senior consultant instead of a search engine.

Workflow 5 — Knowledge Transfer

Problem

Knowledge is lost between teams.

Objective

Preserve operational knowledge.

Audience

Support Teams

AI Prompt

You are a senior consultant specialized in ****Knowledge Transfer****.

Help me solve the following task.

Business Context

[Describe your situation]

Requirements

- Produce a professional result.
- Explain your reasoning.
- Recommend improvements.
- Identify risks.
- Suggest best practices.

Expected Output

- Professional deliverable
- Actionable recommendations
- Clear business language
- Practical next steps

Example

Adapt your response to the supplied business context.

Best Practices

- Include enough business context.
- Specify the desired outcome.
- Mention constraints.
- Review the generated result.

Common Mistakes

- Missing business context.
- Ambiguous instructions.
- Undefined objectives.

Pro Tip

Treat AI as a senior consultant instead of a search engine.

IT Troubleshooting

Overview

This system helps professionals accelerate repetitive business tasks using AI-driven workflows.

Workflow 1 — Incident Diagnosis

Problem

Slow incident resolution.

Objective

Diagnose incidents.

Audience

Support

AI Prompt

You are a senior consultant specialized in ****Incident Diagnosis****.

Help me solve the following task.

Business Context

[Describe your situation]

Requirements

- Produce a professional result.
- Explain your reasoning.
- Recommend improvements.
- Identify risks.
- Suggest best practices.

Expected Output

- Professional deliverable
- Actionable recommendations
- Clear business language
- Practical next steps

Example

Adapt your response to the supplied business context.

Best Practices

- Include enough business context.
- Specify the desired outcome.

- Mention constraints.
- Review the generated result.

Common Mistakes

- Missing business context.
- Ambiguous instructions.
- Undefined objectives.

Pro Tip

Treat AI as a senior consultant instead of a search engine.

Workflow 2 — Log Analysis

Problem

Logs are difficult to interpret.

Objective

Analyze logs.

Audience

Engineers

AI Prompt

You are a senior consultant specialized in **Log Analysis**.

Help me solve the following task.

Business Context

[Describe your situation]

Requirements

- Produce a professional result.
- Explain your reasoning.
- Recommend improvements.
- Identify risks.
- Suggest best practices.

Expected Output

- Professional deliverable
- Actionable recommendations
- Clear business language
- Practical next steps

Example

Adapt your response to the supplied business context.

Best Practices

- Include enough business context.
- Specify the desired outcome.
- Mention constraints.
- Review the generated result.

Common Mistakes

- Missing business context.
- Ambiguous instructions.
- Undefined objectives.

Pro Tip

Treat AI as a senior consultant instead of a search engine.

Workflow 3 — Error Investigation

Problem

Root causes are unknown.

Objective

Investigate failures.

Audience

Developers

AI Prompt

You are a senior consultant specialized in **Error Investigation**.

Help me solve the following task.

Business Context

[Describe your situation]

Requirements

- Produce a professional result.
- Explain your reasoning.
- Recommend improvements.
- Identify risks.
- Suggest best practices.

Expected Output

- Professional deliverable
- Actionable recommendations
- Clear business language

- Practical next steps

Example

Adapt your response to the supplied business context.

Best Practices

- Include enough business context.
- Specify the desired outcome.
- Mention constraints.
- Review the generated result.

Common Mistakes

- Missing business context.
- Ambiguous instructions.
- Undefined objectives.

Pro Tip

Treat AI as a senior consultant instead of a search engine.

Workflow 4 — Performance Analysis

Problem

Systems become slow.

Objective

Detect bottlenecks.

Audience

Infrastructure

AI Prompt

You are a senior consultant specialized in ****Performance Analysis****.

Help me solve the following task.

Business Context

[Describe your situation]

Requirements

- Produce a professional result.
- Explain your reasoning.
- Recommend improvements.
- Identify risks.
- Suggest best practices.

Expected Output

- Professional deliverable
- Actionable recommendations
- Clear business language
- Practical next steps

Example

Adapt your response to the supplied business context.

Best Practices

- Include enough business context.
- Specify the desired outcome.
- Mention constraints.
- Review the generated result.

Common Mistakes

- Missing business context.
- Ambiguous instructions.
- Undefined objectives.

Pro Tip

Treat AI as a senior consultant instead of a search engine.

Workflow 5 — Recovery Plan

Problem

Recovery is improvised.

Objective

Build recovery plans.

Audience

Operations

AI Prompt

You are a senior consultant specialized in ****Recovery Plan****.

Help me solve the following task.

Business Context

[Describe your situation]

Requirements

- Produce a professional result.
- Explain your reasoning.

- Recommend improvements.
- Identify risks.
- Suggest best practices.

Expected Output

- Professional deliverable
- Actionable recommendations
- Clear business language
- Practical next steps

Example

Adapt your response to the supplied business context.

Best Practices

- Include enough business context.
- Specify the desired outcome.
- Mention constraints.
- Review the generated result.

Common Mistakes

- Missing business context.
- Ambiguous instructions.
- Undefined objectives.

Pro Tip

Treat AI as a senior consultant instead of a search engine.
